

1st Annual Metropolis of Denver 2010 Front Range Extreme Olympics

It's a competition, but it's not really competitive.

It's recreational, but it's not really athletic.

It's physical and mental in equal parts.

You've never done anything like this before.

You won't be alone.

You can't practice or prepare for it ahead of time.

You'll have fun and do good deeds, all at the same time.
